

## PROMPT FURNACE COKE MAKES SENSATIONAL ADVANCE; \$2.25 BID WITH NO TAKERS

Price Jumps From \$1.90 to \$2 Over Night and Indicates Point to End of Cheap Spot Fuel; Maximum Tonnage Being Taken on Contracts.

Special to The Courier.

PITTSBURGH, Oct. 15.—There has been a remarkable advance of Connellville prompt furnace coke over night. This morning \$2.25 was bid for spot for shipment in two or three days without thus far finding any takers. Yesterday's market was quotable at \$1.90 to \$2.00 per ton. It looks as if the days of cheap spot coke were over for a long time to come.

Practically all the blast furnaces

are working well and taking maximum tonnages under contracts. This fact, coupled with the scarcity of labor, has suddenly produced a pronounced scarcity of spot or prompt coke.

Another sliding scale contract has just been closed for first half involving about 15,000 tons monthly on the usual basis. There is an inquiry out for 15,000 tons per month for delivery during a portion of next year.

## BRITISH PUBLIC DISSATISFIED AT CONDUCT OF WAR

Irritated Because Air Fleet Failed to Get a Zeppelin.

## REPRISALS STRONGLY URGED

Serbian Clinging to Beliefs Near Heligoland in Hope That Allied Air May Soon Reach Them; German Warship Sunk by British Submarine.

By Associated Press.  
LONDON, Oct. 15.—Military operations in the near east are once more holding chief places in the interest of the public which, as indicated by press comments, is not entirely satisfied with the plans made by the Entente Powers for meeting the latest offensive of their opponents. Even papers like the Manchester Guardian, which has been unreservedly loyal in support of the Entente since expressed dissatisfaction with the speech in the House of Commons on the Balkan situation yesterday by Foreign Secretary Grey.

Operations in the Balkans show little change since the capture of Belgrade except for brief forays by Serbians and Bulgarians. Defending their action in declaring war, Bulgaria claims her neutrality was violated by Serbia. Official announcement that Serbia had declared war was made today.

The Serbians are clinging desperately to the heights above Heligoland, waiting for assistance from their allies. Such aid is expected soon as General Sir John Jellicoe, commander of the expeditionary force, whose splendid defense of the Verdun district contributed greatly to the victory of the Allies on the Marne, has landed at Salonika.

On the western front, the British have gained considerable ground of which they subsequently lost under German shell fire. Conflicting claims concerning the possession of Hill 70 were ruled by the statement by the under secretary in the House of Commons that the British official report had been read incorrectly, in reality claiming only the possession of the mining works around this position.

Although admitting that the forces of cleared front have again been hurled back across the St. Pierre river in Eastern Galicia, Petrograd asserts the advantage still rests with the Russians who hold eight miles on the east bank of the river after actions which have virtually separated the Austro-German armies. Violent action continues on the Danub front with little relative change in the position of the contestants.

Intimidation is displayed by the press at the failure of the reorganized air force for the defense of London to bring down a single Zeppelin on Wednesday night. Demands for reprisals are increasing.

LONDON, Oct. 15.—A dispatch to the Central News from Copenhagen says a British submarine has sunk a German torpedo boat.

A message from Petrograd, Sweden, which brought news of this incident, adds that a German destroyer and a cruiser which were accompanying the destroyer, speeded to the south.

## DAIRYMEN FAIL TO SHOW INTEREST IN NEW ASSOCIATION

Farm Agent is Convinced, However, He Can Prove It Will Pay.

Washington County Organization Has Shown Farmers How to Cut Their Expenses and Figures are Much Lower Than Those of Local Men.

Although the dairymen have not as yet warmed up to his plans for a cow testing association, County Farm Agent J. E. Daugherty has not given up the proposition. Only five milkmen were on hand at the meeting in J. L. Stader's office last night, though practically all of them had promised to attend. Mr. Daugherty will now make a personal canvass of the cattlemen, explaining to them the value of such an association.

P. R. Weaver, assistant state leader of county farm agents, and S. E. Engle, farm agent for Westmoreland county, were present to discuss the association with the dairymen, and it was considerable of a disappointment to the state college experts that more men did not turn out to meet them. The meeting developed into a discussion of the uses of a cow testing association and it proved of benefit to those who attended.

Washington county dairymen have combined in an association of this sort and reports for last year show that cows were maintained for \$44 a year, whereas one of the dairymen present that night declared that each of his cows cost him \$56 a year. It probably comes nearest to strictly scientific farming in this section, and refused to believe that a cow could be kept for that amount. The farm agents present could not see how a dairyman could make money if it cost him \$56 a year to keep such a cow.

The experts declared that their object is to prove to the dairymen that they can reduce the cost of maintenance of their cows through a testing association. A man would be employed to keep records of each cow, his production and the amount of feed necessary to give its greatest efficiency in milk producing.

It was also shown that by pooling their interests in an association of this sort, feed could be purchased at wholesale prices and from \$5 to \$8 a ton saved.

Considerable interest was expressed by the farmers present in the work at the State College experimental station and it is likely that the Pennsylvania railroad may be prevailed upon to run an excursion from this section so that they may have opportunity to see what is being done there.

Farm Agent J. E. Daugherty is desirous of having a third meeting to work this section and he hopes to get the farmers interested in the Fayette County Farm Bureau to such an extent that he may get a complete registration of all farmers for the purpose of sending out bulletins and other valuable data. A meeting of the bureau will be held in Uniontown tomorrow at 10 o'clock in the court house.

## HIGH SCHOOL CUTS RATE FOR SPECIAL; MEETS COMPETITION

Principal Smith Announces Reduction to Price Offered by Opposition; Gets Angel, Too.

The amusing war over whose special car shall take the high school to Greensburg tomorrow—the high school's or that of enterprising outsiders, seems to be favoring the high school today. Announcement was made by Principal B. Smith this morning that the athletic association would run a 40-cent special, weather permitting, thus meeting the price of the outsiders. Originally the high school rate was to be 25 cents for the round trip and the other car's rate was to be 40 cents.

"Our rate will be 40 cents," said Mr. Smith today, "but if anybody wants a special concession we will sell him a ticket for 25 cents."

After reading an account of the rival cars in The Courier last night, a friend of the high school whose name must be withheld, asked Principal Smith whether he was running the other car. When told, he announced that he would back the high school in its efforts to secure a special and make up any deficit. A few over 200 will be necessary to make expenses on a special.

The boys who are trying to sell enough tickets for a special in opposition to the high school, held a parley with Principal Smith this morning. They announced that they were with the high school at all times, and suggested that if the high school would turn over the money it had already collected for tickets they would honor the tickets on their car. This, they were kind enough to intimate, would protect the school from loss. They were stumped when Principal Smith asked them to stop. The high school would run its car no matter what the opposition did. One of the youths told Mr. Smith it would be unwise for him to go down in his pocket for a loss on his car, but Mr. Smith smiled and said he would take a chance on it.

As the matter stands, there have not been enough tickets sold yet to fill one car, but the probability is that the high school will carry those who go. It will leave at 1 o'clock and pink tickets only will be accepted for transportation on it. When the other car will leave, if it does, has not been announced. The high school car will return either at 5:30 or 6 o'clock.

A card announcing advertising the opposition car appeals to the thrift of the community. It says that the car will be "economized" by buying 50-cent tickets.

A mass meeting of the students of high school will be held in the auditorium at 8 o'clock tomorrow evening to discuss the matter. If the students turn out as loyally as they should a parade of the town will be made.

Mass meetings have been held in former years and stirred up much enthusiasm, but last Friday the parade failed. Cheer Leader Louis Foley and Assistant Cheer Leader Helen Buttermore will run the school band tomorrow to cheer the team, and speeches will probably be made by the faculty and others interested in the football team.

## SCOTSDALE MAN LOSES LIFE AS CAR OVERTURNS

Death of President of Council J. W. Fitzsimmons is Shock.

Three Escaped, But One Had His Skull Crushed When Their Car Went Over Embankment; Deceased Was Well Known; Leaves Family.

Special to The Courier.  
SCOTSDALE, Oct. 15.—James W. Fitzsimmons, president of Borough Council, was almost instantly killed when the six-cylinder touring car driven by Frank Moorehead left the road and turning completely over, stood again on its wheels, after going down an embankment of about 20 feet, near Hawkeye, a suburb of Scottdale, last evening about 8 o'clock. It was the first automobile tragedy here and the sudden death of such a popular man as Fitzsimmons caused shock to the town such as there has not been felt here in years.

Besides the victim of the accident and Moorehead there were in the car Walter Stoner and Otto Mauck. The four men, all rollers in the Scottdale mills of the American Sheet & Tin Plate Company, had chanced to meet at Steiner's tobacco store. Mauck said that he thought he would go to his home in Hawkeye, just above town. Moorehead was there in his car and offered to take Mauck home and the others for a short ride. They started from town and when going along the road near Edward Werkman's it is said that the front left wheel went flat. The car swept into a telephone pole, shattering it up about the height of the car, through a fence, down over a steep embankment there, and came to a stop again parallel with the road. One side of the car was badly damaged and the windshield broken. The lights were still going, however, it is said. From what was told, James Fitzsimmons was thrown out and the car then struck him, the running board crushing his skull. Two physicians were rushed to the scene of the accident, reaching it only a few minutes later, but nothing could be done for the victim of the accident. Mauck had his shoulder injured, but beyond bruises and cuts and a severe shock no other much was done. The victim of the accident had been the owner of a car for some years, and Mauck is also the possessor of a large car. Stoner sold his car recently.

Undertaker William Ferguson brought the body to his undertaking rooms where it was prepared for burial, before being removed to the late home of the deceased, who leaves a wife and daughter, Mrs. Vera and Winnie. The family came here from Apollo about 17 years ago, and the deceased, who was about 45 years of age, was well known, and the possessor of a lively spirit, a quick wit and a distinct likableness, he had wide circle of friends in Scottdale and throughout the county. The deceased had served for several years as a councilman from the Third ward, and at the time of his death he was president of council. He was a member of the Reformed Church and was one of the charter members of the B. P. O. Elks of this place.

He was a Republican in politics and took active part in both borough and county elections and was always sought by candidates, because of his acquaintance and popularity.

Mr. Fitzsimmons was one of the organizers of the Scottdale and East Hazelton Good Roads Club, and was elected its president. He had worked hard for an improved highway along the very spot he met his death.

Funeral services will be held on Sunday afternoon and the body will be taken to Apollo for burial.

LOOKING FOR CARS  
L. G. McCrum of Somerset Pays Visit to Connellville.  
Lloyd G. McCrum of Somerset, general manager of the Victor Coal Mining Company of Somerset, was a Connellville visitor over night. Mr. McCrum came to town to consult local officials of the Baltimore & Ohio railroad as to the car supply in the Somerset field.

The officials here were able to give little encouragement. Cars are scarce, particularly coal cars, and operators consider themselves fortunate. Usually they get less than this amount, and some days none at all.

The car shortage on the Baltimore & Ohio is hitting the coal operators hard in all districts

### Assisting Ambition

Men of ambition—with the desire to forge ahead—need revitalizing food to help them to compel success.

### Grape-Nuts

is a success food. It is made from whole wheat and malted barley and, pound for pound, contains far more "go" and "got there" than ordinary foods.

It retains all the nutriment of the grains, including their natural mineral salts—Phosphate of Potash, etc., often lacking in ordinary food, but essential to thorough upbuilding of sinew, brain and nerves.

Grape-Nuts is partially predigested and agrees with all. It's the ideal vigor-food for child and adult.

### COFFEE WHIPS UP AND CONSUMES RESERVE ENERGY

Investigators Declare Continued Use of Coffee Works Disaster to Nervous System.

"Does the daily use of coffee as a beverage, continued for a series of years, do harm?" "Yes," says Dr. W. A. Evans in the Chicago Tribune. "A horse cannot be whipped daily for years without being harmed. A man cannot be nagged continuously for years without being harmed. The very fact that when fatigue is showing down muscles and brain cells, coffee will whip them on, and that under the stimulus of coffee the working capacity is unduly excited, is proof that harm will come if the process is kept up for a series of years."

"Fatigue is a danger signal," adds another investigator. "It means that the weary body should immediately seek rest. Coffee in any form puts a mask on this signal, and temporarily conceals it by whipping up the reserve forces at then consuming them. Fatigue is like a red light that calls attention to a ditch in the dark. Nobody with common sense would assume for a minute that by putting out the light the ditch would be removed. Yet that is exactly what weary people do when they disguise their weariness for an hour by resorting to stimulants."

NOTE.—It is interesting to observe that as medical science more and more reveals the harmfulness of coffee to the health of both old and young there follows a tremendous increase in the use of the pure food beverage, POSTUM.—Adv.

### FRAIL, SICKLY CHILD

Father Tells How Boy Was Restored to Health and Strength.

We have always told the people of Conneltsville that Vinol is a wonderful body builder for ailing children. Here is more proof of the fact: J. L. Albright of Miami, Fla., says: "Our little boy was puny and cross from the time he was born, and we hardly knew how to handle him. When he was three years old he was weak and so cross we could hardly live with him, and we could not get him to eat anything. A friend asked us to try Vinol. We did so and you should see the change it has made in him. He is now a good-natured, healthy youngster, ready to eat at any time, and we cannot praise Vinol enough."

Vinol is especially efficient in building up puny, weak, ailing children, because of the real and liver extractives, potentates of iron and beef permeate which it contains, and as it is without oil or grease children love to take it. Langhrey Drug Co., Conneltsville, Pa.—Adv.

When Constipated or Bilious Give "California Syrup of Figs."

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once. When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad, has stomach-ache, sore throat, diarrhea, full of cold, gives at the back of the head, or is constipated of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without straining, and you have a sweet, playful child again. You needn't coax sick children to

take this bar-nice "fruit laxative," they love its delicious taste, and it always makes them feel splendid. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly written on the bottle. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.—Adv.

## Thin Folks Who Would Increase Weight

### Simple Directions Easy to Follow.

Thin men and women—thin hearts, thinning dinner you ate last night. What became of all the fat-producing nourishment it contained? You haven't gained in weight one ounce. That food passed from your body like unburned coal through an open grate. The material was there, but your food doesn't work and stick, and the plain truth is you haven't got enough nourishment from your meals to pay for the cost of cooking. This is true of thin folks the world over. Your nutritive organs, your functions of assimilation are sadly out of gear and need reconstruction.

If every way you've tried to put on weight has failed try these simple directions. Cut out everything but the meals you are eating now and eat with

every one of those single Sargol tablets. In two weeks note your weight. Sargol does not of itself make fat but mixing with your food its purpose is to help the digestive organs turn the fats, sugars and starches of what you have eaten, into rich, ripe fat producing nourishment for the tissues and blood—prepare it in an easily assimilable form which the blood can readily accept. A great deal of this nourishment now passes from thin people's bodies as waste. Sargol is designed to stop the waste and make the fat-producing contents now develop pounds and pounds of healthy flesh between your skin and bones. Sargol is non-injurious, pleasant, efficient and inexpensive. All leading druggists are authorized to sell it in large boxes—forty tablets to a package—on a guarantee of weight increase or money back—adv.

### At the Theatres

#### SOISSON THEATRE

"NEAL OF THE NAVY."—The third episode of the thrilling serial "Neal of the Navy," will be shown at the Soisson Theatre today. Lillian Lorraine and William Courtwright are the stars of this excellent production. The baseball comedy, "You Know Me, Al," is also presented today and it's good. The two reel lamp comedy, "An All Around Mistake," with Kim Hargret in the leading role, depicts the adventures of a married man who goes out on a job, commits murder in his inflated imagination and finally winds up in jail. Little Ritchie appears today in "Married on Credit" supported by Louise Outh and Henry Bergman. It is a very funny story wherein Billy wants to get married on credit and fails. Gale Henry is the star in the Joker comedy, "The Condon's Support the Wife." It is so interestingly funny that to see it is to laugh one's head off. Tomorrow, William A. Brady will present the celebrated actor, Robert Warwick in the five reel society success, "The Stolen Voice." Monday, Charles Chaplin comes in the "Tango Tangle." "THE STOLEN VOICE"

World Film Corporation presents the five-part film photoplay, "The Stolen Voice," based upon a story by Paul McAllister.

Robert Warwick, whose artistic work in recent World Film offerings has brought him the commendation of discriminating judges of motion pictures, appears in the greatest advantage in this drama which has been directed by Frank H. Crane. In the cast there are Victor J. Horne and Frances Nelson, two well-known and experienced actresses.

Warwick's part is that of a popular singer, who at the zenith of his success loses his speaking and singing voice. Misfortunes almost overwhelm him. His rich fiancée deserts him; he loses all he has in despair, after some years, he seeks and obtains a job in a "music" studio.

He gets the job, makes good, and becomes a star. In the same company there is a young girl, who has secretly loved him. She, too, was poor and needy, never she is successful and famous. The mutual love of the two stars culminates in a happy marriage. Beautiful photographic characterizations, this exciting and interesting production which is full of great situations. The story is a good one, it is human, moreover, it shows us some intimate scenes of artistic life which always interest us when we see them on the stage or the screen.

"The Stolen Voice" will be presented at the Soisson Theatre, tomorrow.

#### COLONIAL THEATRE

"KILMERRY."—Lenore Ulrich, who took the country by storm the past two seasons as star of "The Bird of Paradise," is making her first appearance as a motion picture star under the auspices of the Colonial Theatre. Photoplay Company in the happy love story, "Kilmerry," which will be seen tomorrow at the Colonial Theatre. Lenore Ulrich, herself one of the most promising figures among American actresses, is supported by a specially assembled all-star cast. This brilliant roster is made up in part of William Desmond, a matinee idol of both America and England; Herbert Standing who played leads with Sir Henry Irving and Sir Charles Wyndham; Myrtle Stedman, one of the most beautiful women in motion pictures; Victory Bateman, leading woman for Edwina Booth and Salval in her recent and Richard Mansfield's selection for Rexane in "Cranes" until her breakdown; Howard Davis, Marshall Mackaye, Jane Barwell, Frederick Wilson and others.

The South American travel series complete the program.

"Death's Marathon," a Biograph drama with Blanche Sweet and Henry Walthall. ### HAS FAITH IN QUICK REMEDY FOR CATARRH

A. A. Clarke Guarantees That Hyomel Will Relieve the Worst Cases of Catarrh in Connellsville.

When one of the most reputable concerns in Connellsville guarantees that a medicine will produce benefit or will refund the money, it speaks volumes for the merits of that remedy. It is in this way that A. A. Clarke is selling Hyomel, the treatment that has helped so many cases of both acute and chronic catarrh in this vicinity.

Hyomel is not a pill nor is it a spray or a lotion that must be rubbed in. It is an oil, the air of which you just breathe in your nose, throat and lungs by the aid of an inhaler that comes with every outfit. Hyomel will actually be seen from the very first treatment.

This oil destroys all germ life in the air passages and lungs and envelopes and purifies the blood with the additional ozone it supplies. It banishes catarrh of the head and throat and respiratory organs. Wherever these mucous membranes contain catarrhal germs, this Hyomel will do its work of healing. When using this treatment, the air you breathe will be found like that on the mountains high above the sea level, where grows the balsamic trees and plants which make the air pure by giving off volatile antiseptic fragrance that is healing to the respiratory organs.

The complete Hyomel outfit is inexpensive and includes an inhaler, dropper and sufficient Hyomel for several weeks' treatment.

Remember that if Hyomel does not relieve you, A. A. Clarke will refund your money. This is a good time to get rid of catarrh by this natural method and prevent catarrhal colds that is so common at this season—adv.

## PIG IRON OUTPUT FOR SEPTEMBER IS LARGEST ON RECORD

Exceeds the Previous High  
Mark of May, 1913, by  
18,000 Tons.

### UP TO THEORETICAL CAPACITY

Estimates are that Blast Furnaces of County could not make more than 500,000 tons a month over the actual output of September.

September's production of coke and anthracite pig iron, 2,341,312 tons, was the largest in the history of the American industry, says the Daily Iron Trade. It exceeds the previous high mark in May, 1913, by 18,000 tons. It marks a gain in output since last December, the low point in the declining movement, of 1,340,000 tons or 50 per cent; since September a year ago, of 2,000,000 or 25 per cent. At September's rate, the yearly rate of production was 28,095,936, closely approximating 25,000,000, the country's theoretical pig iron producing capacity.

September made a gain of 59,517 over August, 2,771,825 tons, with one less working day. The larger comparative gain in September was made by the merchant furnaces with 681,111 tons, compared with 622,967 tons in August, a gain of 58,144 tons. The steel works furnaces produced 2,121,243 tons in September and 2,091,184 tons in August, a gain of 30,059 tons. The average daily production last month was 24,475 tons, compared with 23,519 tons in August, a gain of 956 tons.

The number of active stacks on September 30 was 266, compared with 245 on August 30, the September number being the largest since June, 1914. The number of September active stacks shows a gain of 111 stacks, or 77 per cent, over the number operating in last November, and compares with 306 February 24, 1915. At the latter date more small merchant stacks were active, so that September established a new production record with fewer furnaces blowing. Thirteen merchant furnaces were lighted last month and one blown out, a net gain of 12. Nine steel works furnaces blew in and one blew out, a net gain of 8; in all 22 furnaces being relighted and two blown out.

The ferro production in September was 21,228 tons, compared with 18,907 tons in August, a gain of 2,321 tons. The spiegel output was 7,355 tons, compared with 12,367 tons in August, a loss of 5,012 tons.

### ROCKWOOD.

ROCKWOOD, Oct. 15.—Robert Earle, the 10-year-old son of Charles Earle of Black township, was killed by a horse Monday last at the barn of John Markers, with whom the boy had been staying. The wound did not seem serious at first, but Thursday the boy was taken to the Cottage State Hospital at Connellsville, where he will receive treatment for his eye and nose. The shoe of the horse struck the boy in the face, cutting a large gash above the right eye and striking his nose.

Dr. C. T. Saylor has returned home from the Memorial Hospital at Johnstown, where he was a patient for several weeks after an operation for appendicitis.

### ARCADE THEATRE REOPENS; FINE PICTURES ON PROGRAM

House Has Been Newly Decorated and Organ Made a Feature.

The newly renovated Arcade Theatre was a scene for motion picture followers yesterday afternoon and last night. Prospects are that it will take rank as one of the most popular houses in town. Good pictures are on the program, and everything else is up to the minute, especially the music. The theatre has been artistically decorated throughout, and former patrons hardly recognized the place.

The initial film offering, William Fox's production of "Dr. Rameau," was splendid, as all Fox films are. Frederick Perry was the star, supported by Jean Southern, Stuart Holmes, Dorothy Bernard and George Allison. The Arcade announces attractions in the near future which include Francis X. Bushman and Marie Sorel, starting next Thursday. William Shay, and other stars of the Metro program.

Today's bill includes two four-reel Mutual Masterpieces, "The Coast of Death," starring Louise Glaum, and "Stranger," starring Louis Hunt.

For a time last night standing room was at a premium and the Arcade management is greatly encouraged over the opening day's business.

**Cause of Constipation.**

Constipation results from a lack of moisture in the rectal matter of the food. To effect a permanent cure more water must be taken into the system. Drink a full glass of water half an hour before breakfast and about the third of a glass an hour and a half after each meal, also eat an apple or banana before breakfast and before going to bed. Make sure that your bowels move just after breakfast whether there is an inclination or not. When a medicine is needed take Chamberlain's Tablets as they are mild and gentle in effect, but non-medicine should be taken when operations can be induced naturally each day. To effect a permanent cure time and patience are required as bad habits are more easily formed than broken up. Obtainable anywhere.—Adv.

### SHOWS MORE GAIN

Steel Corporation's Unfilled Tonnage Report Surpasses the Trade.

A surprising increase of 402,153 tons was made in the unfilled order book of the United States Steel Corporation for September, according to the monthly statement issued last week. The size of the gain was much in excess of general expectations, where not more than 100,000 tons had been looked for. Interests closely identified with the steel corporation themselves were surprised with the tonnage added since before the final figures had been compiled it was believed not more than a moderate gain would be registered.

One cause for the heavy increase is attributed to the large tonnages of

### To Make Skin Clear

Don't worry about skin troubles. You can have a clear, clean complexion by using a little Zemo, obtained at any drug store for 25c, or extra large bottle at \$1.00.

Zemo easily removes all traces of pimples, black heads, freckles, and skin blemishes and makes the skin clear and healthy. Zemo is neither watery, sticky nor greasy and stains nothing. It is easily applied and costs a mere trifle for each application. It is always dependable.

### ANURIC!

The Newest Discovery in Chemistry

This is a recent discovery of Doctor Pierce, who is head of the Invalids' Hotel and Surgical Institute at Buffalo, N. Y. Experiments at Dr. Pierce's Hospital for several years proved that there is no other eliminator of uric acid that can be compared to it. For these easily recognized symptoms of inflammation—back ache, swelling urine and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, it is simply wonderful how surely "Anuric" acts. The best of results are always obtained in cases of neuritis, rheumatism in the joints, in gravel and gout, and invariably the pains and stiffness which so frequently and persistently accompany the disease rapidly disappear.

### BETHLEHEM BUYS LAND.
